

Easy Installation = Lower Labor Costs

At only 37-pounds, each panel can be moved and set-up by one person.

Simply place panel on top of bases and the fence begins to take shape

Easier Handling With Complete, Self-Contained Pallets

- Our 28-panel pallets (giving you 210-linear feet of fence) eliminate the need to load panels individually.
- A forklift can lift a pallet onto a flatbed or pick-up truck, resulting in safe, easy loading, and easy moving of panels and parts to and from the job site.
- All necessary bases, panel clamps and bolts are included.

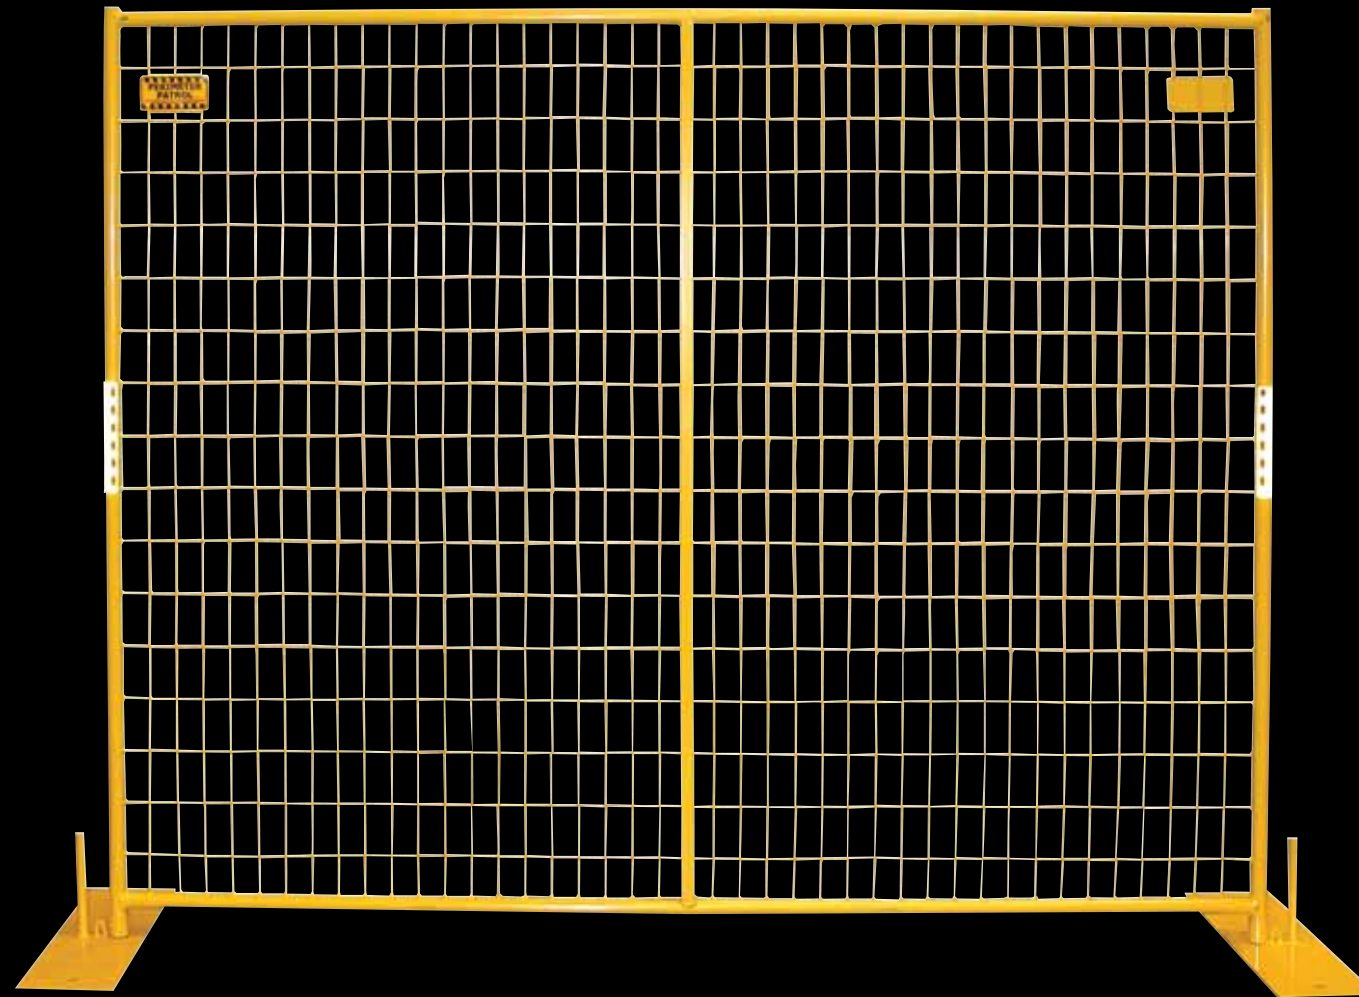

Everything needed for 210 linear feet of fence is contained in a single pallet that is easily transported to the job site

PERIMETER PATROL™

PERIMETER PATROL™

High-Visibility Temporary Fencing Panels

WELDED WIRE PANELS

Set-up Temporary Fencing in 6 Easy Steps

1

Load pallet into truck and drive to the job site.

2

Place bases approximately 7.5 feet apart around perimeter of job site.

3

Remove a panel from the pallet.

4

Place panels over posts in the bases.

5

Repeat for the remainder of the panels

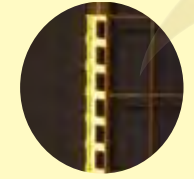

6

Connect panels to each other using the panel clamps.

Fencing is 2-inch by 4-inch welded wire mesh. With no edges, these portable fence panels are safe for workers and will-not get hung-up during handling or unloading.

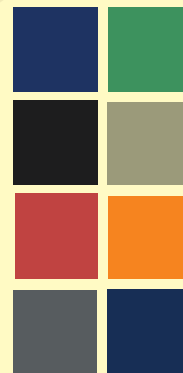

Night-reflective labeling maintains visibility in darkness

One base accommodates two frames so that the entire fence is interlocked.

Color Choice

Standard colors are caution yellow or midnight black, but custom colors are available.

Bold colors for extra fence visibility

Base weights keep unit stable in high-wind zones

Gate wheel transforms a panel into a swing gate

Sturdy bases in multiple colors

Extension panels add another foot of height to the top of the fence. These can be installed vertically or at a 45 degree angle

Components and Extras

 Panels (7.5' x 6') RF10005 37 lb	 Empty Pallet RF12815 279 lb	 Connectors for extension panels RF22005 45° Angle RF21005 Vertical	 Extension Panel RF20005 13 lb
 Panel Clamps (with bolts) RF50005 0.54 lb	 Ground bases RF30005 8 lb	 Swing Gate Wheel F11005 8 lb	 Cable Drive Rod RF9005 1.5 lb
 Complete Set RF12085 Includes 1 pallet, 28 panels and all necessary bases and panel clamps with bolts		 Ground Base Weight RF31115 33 lb	 Safety Base Tie-Down RF31005 0.30 lb

"No-Climb" Extension Panels

Add Height to the Top of Your Fence

- Panels add another foot of height to the top of the fence
- They can be installed vertically or at a 45 degree angle

Add one foot to the top...

...or place extension panel at an angle

Complete, Self Contained Pallets

- Each pallet holds 28 fence panels – 210 linear feet of fence
- Pallet design allows easy access to panels for loading and unloading
- Pallet dimensions: 42" wide, 90" long, 80" high
- Pallets are designed for lifting on all four sides, enabling side loading on flatbeds

Removable Hardware Basket

Each pallet features a hardware basket at its top, which stores all bases, clamps and bolts. Simply remove this basket from the top of the pallet, and begin unloading the fencing panels.

Basket of components is easily removed from top of pallet
